

## Al Gore

[algore.com/](http://algore.com/)

Provides free downloadable curriculum relating to *An Inconvenient Truth* for multiple levels, as well as other links.

## Alliance to Save Energy

[ase.org](http://ase.org)

Articles, news items, and links on Energy conservation and alternate sources.

## American Public Media

[sustainability.publicradio.org](http://sustainability.publicradio.org)

Audio and text of Public Radio shows that address sustainability. Database includes articles, updates and audio shows available to be played or shown in the classroom.

## A.S. Recycle

[aschico.com/recycle](http://aschico.com/recycle)

Chico State's innovative recycling program.

## Association for Advancement of Sustainability in Higher Education

[aashe.org/](http://aashe.org/)

A wide range of resources for the development and support of a sustainable campus directed towards faculty, staff and administration. Access requires membership, but most colleges are already members. The DANS page is highly recommended.

## Buckminster Fuller Institute

[bfi.org](http://bfi.org)

The "Idea Index" offers a wealth of fascinating and playful projects and problem solutions adaptable to all sorts of courses.

## Butte College Green Careers

[butte.edu/services/career\\_services/greencareers.html](http://butte.edu/services/career_services/greencareers.html)

Listing of sites related to work in the fields of sustainability.

#### Butte College's Commitment: Talloires Declaration

[ulsf.org/programs\\_talloires.html](http://ulsf.org/programs_talloires.html)

Presents original international agreement along with some supporting documents, examples of implementation at various institutions, and links to said institutions.

#### Butte Environmental Council

[becnet.org](http://becnet.org)

Covers local water, air and land quality controversies. Best local recycling guide available.

#### California Fuel Cell Partnership

[cafcp.org/outreach/teachers](http://cafcp.org/outreach/teachers)

Provides free lesson plans and educational materials about hydrogen energy and fuel cells, mainly geared for K-12.

#### Center for Ecoliteracy

Instructional tools for systems-thinking, place-based and problem-based learning, as well as resources for learning about health, nature and other sustainability issues.

#### Chico News and Review: Greenways

[newsreview.com/chico/home](http://newsreview.com/chico/home)

Sustainability themed articles in a searchable archive, from local to international.

#### Climate Interactive

[climateinteractive.org](http://climateinteractive.org)

For science teachers, offers free, interactive, online climate simulators, as well as a teacher's blog and helpful info for facilitators.

#### Conservation International

[conservation.org](http://conservation.org)

Virtual tours, teaching resources and in-depth green jobs guide.

## Commonweal

[commonweal.org](http://commonweal.org)

Nonprofit focused on human health and environmental issues, with articles, info and links.

## The Daily Green

[thedailygreen.com](http://thedailygreen.com)

News and info on implementing "green living" in everyday life, including energy conservation, global warming, and organic food.

## DANS

### Database of State Incentives for Renewable Energy

[dsireusa.org/](http://dsireusa.org/)

Easily searched with summaries, categorizations, and links.

## Earth Day

[earthday.net/](http://earthday.net/)

Educators, network provides many lesson plans free to use on multiple environmental and ecology subjects, for levels K through 12.

## Earth Island Institute

[earthisland.org](http://earthisland.org)

Grassroots activism focused on environmental sustainability, their projects page offers dozens of links appropriate for service learning, student activism and political science courses.

## Earthteam

[earthteam.net](http://earthteam.net)

Aimed at service learning for teens, with information, project guidelines for community involvement, news items and links.

### Edible Shasta-Butte

[ediblecommunities.com/shastabutte/](http://ediblecommunities.com/shastabutte/)

Organic farms and foods, some articles available free.

### The El Paso Collaborative Health Literacy Curriculum

[healthliteracy.worlded.org/docs/elpaso/hazards.htm](http://healthliteracy.worlded.org/docs/elpaso/hazards.htm)

Lesson plan and accompanying activities on household chemical hazards.

### Environmental Defense Fund

[edf.org/home.cfm](http://edf.org/home.cfm)

Videos and publications on a host of sustainability issues which can be freely used if the user gives credit.

### The Environmentalist

[the-environmentalist.org](http://the-environmentalist.org)

A large archive of articles, focused on climate issues, available for free use under creative commons, ranging from 9- 12 to university level.

### Facing the Future

[facingthefuture.org](http://facingthefuture.org)

Free curriculum and instructor resources.

### Farm to School

[farmtoschool.org](http://farmtoschool.org)

Program to encourage locally grown, organic, "slow food" in school meals. Provides studies, articles, and curricular resources for younger or basic skills students.

### Food Inc.

<http://www.foodincmovie.com/spread-the-word.php>

Study and discussion Guide for the Documentary *Food Inc*, free to use and

distribute, aimed at 6-college. Underwritten by the Center for Ecoliteracy.

#### The Future of Food

[snagfilms.com/films/title/the\\_future\\_of\\_food/](http://snagfilms.com/films/title/the_future_of_food/)

Documentary exploring unlabeled GMO foods.

#### Global Footprint Network

[footprintnetwork.org/en/index.php/GFN](http://footprintnetwork.org/en/index.php/GFN)

Well laid out with lots of info, and resources (downloadable articles, news clips and interview videos) ranging from basic to complex.

#### Green America

[greenamericatoday.org](http://greenamericatoday.org)

Info and some articles on a range of sustainability topics. Some content may require membership.

#### Green Map

[greenmap.org](http://greenmap.org)

Website and software tools to create a "green map," a publically built map wherein one can add photos, comments and sites in order to educate locals and visitors about sustainable places in communities.

#### Green Museum

[greenmuseum.org](http://greenmuseum.org)

Specifically for artists, art lovers and art teachers, the "educators' toolbox" link is especially helpful.

#### Green Schools Initiative

[greenschools.net/](http://greenschools.net/)

A directory of sites that offer free curricula for K-12 and beyond.

#### GreenSource

[greensource.construction.com](http://greensource.construction.com)

Homepage for print journal focused on sustainability in building construction and design, with news items and articles that may be used with proper citation.

#### Grist

[grist.org](http://grist.org)

Sustainability activism and news, wide-ranging in topics and reading levels.

#### International Society for Ecology and Culture

[isec.org.uk](http://isec.org.uk)

Fascinating and sophisticated resources focusing on biological and cultural diversity.

#### Kilowatt Ours

[kilowattours.org](http://kilowattours.org)

Site for documentary on energy conservation, with some info and free curriculum for younger students.

#### Larry Beans

[larrysbeans.com/sustainability-school](http://larrysbeans.com/sustainability-school)

Basic skills links, resources and curriculum.

#### Learning for Sustainability

[learningforsustainability.net](http://learningforsustainability.net)

Information and resources for free usage, as well as a large collection of links.

#### Mother Earth

[motherearthnews.com/](http://motherearthnews.com/)

The classic sustainable living magazine is useable on a small scale if cited.

#### National Environmental Education Week

[eeweek.org](http://eeweek.org)

In support of the national program, provides info, curriculum, and links on a variety of environmental topics, mainly for grades K-12.

#### National Renewable Energy Laboratory

[nrel.gov/](http://nrel.gov/)

Scientific/technical, more descriptive than informational. Government copyright.

#### National Resources Defense Council

[nrdc.org](http://nrdc.org)

Nonprofit in support of environmental preservation, sustainability, and other ecological issues. Provides a variety of articles, news items, and other info on a wide range of topics.

#### Nature Conservancy

[nature.org](http://nature.org)

Nonprofit in support of nature, this site offers numerous resources for environmental science and project engineering.

#### Patagonia

[patagonia.com](http://patagonia.com)

The "Environmentalism" section is a database of wildlife and nature stories designed to engage, inspire, rant and remediate. Most articles are free to use and suitable for various college courses.

#### PBS Campus Sustainability Report Card

[pbs.org/now/shows/313/endowment-policies.html](http://pbs.org/now/shows/313/endowment-policies.html)

Includes video of episode including segment on campus sustainability, as well as viewable index of each campus report.

#### Redefining Progress

[rprogress.org/](http://rprogress.org/)

Provides lesson plans, quizzes and other educational materials free to educators, ranging from elementary to university. Focus is on environmental footprints.

## Second Nature

[secondnature.org](http://secondnature.org)

Under the resources link, numerous articles, factsheets and other texts designed to assist campus activism as well as useful for curriculum.

## The Seed Hunter

[seedhunter.com](http://seedhunter.com)

Documentary exploring why and how we need to diversify agriculture.

## Sierra Nevada

[sierranevada.com/](http://sierranevada.com/)

Describes in detail the innovative sustainability methods in use at the facility, with links to relevant sites.

## Southwest Environmental Health Sciences Center

[coep.pharmacy.arizona.edu/index.html](http://coep.pharmacy.arizona.edu/index.html)

Provides a range of educational materials, mainly aimed at K-12, on health issues, some environment and sustainability related.

## Stanford University Microdocs

[stanford.edu/group/microdocs](http://stanford.edu/group/microdocs)

With a focus on coral reef ecology and preservation, provides video "micro-documentaries" and accompanying educational materials. Free for use to teachers. Aimed at grades 9 - 12.

## The Story of Stuff

[storyofstuff.com](http://storyofstuff.com)

Along with the short film, provides several other resources. Useful for all levels. Free for noncommercial use as long as the material is not altered.  
(Creative Commons usage)

## Sustainability - Open Access Journal

[mdpi.com/journal/sustainability](http://mdpi.com/journal/sustainability)

Database of scholarly articles on a range of sustainability and environmental issues. All material is open to free use as long as proper citation is used.

#### Sustainability Institute

[sustainer.org](http://sustainer.org)

Non-profit, academic institution dedicated to understanding the natural, social and economic worlds as interconnected systems. Complex, inspiring, free articles

#### Sustainability.org

[sustainability.org](http://sustainability.org)

General information on varied aspects of sustainability, however site is largely under construction. Fair use for non-commercial purposes is allowed.

#### Sustainability: Science, Practice and Policy

[ejournal.nbii.org/](http://ejournal.nbii.org/)

Free to use (creative commons) scholarly and politically astute works.

#### Sustainweb

[sustainweb.org/sustainablefood](http://sustainweb.org/sustainablefood)

Sustainable food principles with downloadable documents.

#### TreeHugger

[treehugger.com](http://treehugger.com)

News site with articles ranging across a wide spectrum of sustainability and environmental topics.

#### United Nations Sustainable Development

[uncsd2012.org](http://uncsd2012.org)

Geopolitical focus.

#### Urban Environment Management

[gdrc.org/uem/sustran/sustran.html](http://gdrc.org/uem/sustran/sustran.html)

Transportation alternatives and sustainable urban development.

US Department of Energy (DOE)

[eere.energy.gov/](http://eere.energy.gov/)

Moderately scientific/technical. Materials and links for educators, as well as some for kids. Subject to Government copyright.

US Environmental Protection Agency

[epa.gov/teachers](http://epa.gov/teachers)

Tons of free and fun sustainability curriculum appropriate for K-12.

US Green Building Council

[usgbc.org](http://usgbc.org)

Resources for LEED builders.

World Wildlife Fund

[worldwildlife.org](http://worldwildlife.org)

Extensive downloadable environmental databases suitable for creating math and science-based curriculum; numerous articles and videos.
